Basis Art. 19 LR

I General provisions

Art. 1 Object

This Directive contains additional provisions regarding the requirement of the free float pursuant to Art. 19 LR, according to which the required sufficient distribution is achieved if at least 20% of the outstanding equity securities of the issuer in the same category are publicly owned and the capitalisation of the equity securities held by the public is at least CHF 25 million.

Art. 2 Purpose

The prescription of minimum public free float and minimum capitalisation of the equity securities held by the public aims to achieve the realisations of market-consistent trading.

Art. 3 Scope of applicability

This Directive applies to issuers of equity securities with primary and secondary listings.

II Basis of calculation and distribution

Art. 4 Calculation of public ownership

¹ Not deemed to be publicly owned are:

1. equity securities held by the company itself or its subsidiaries;
2. equity securities of shareholders or associated shareholder groups (excluding equity derivatives defined in Art. 15 FMIO-FINMA and equity securities purchased in the framework of securities lending or “repo” transactions) amounting to more than five percent pursuant to Art. 120 et seqq. of the Federal Act of 19 June 2015 on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading (FMIA);
3. equity securities that serve to guarantee convertible rights and options, if they are not deemed to be equity securities owned by the company in the context of Point 1;
4. equity securities that are not tradable within the framework of lock-up agreements;
5. equity securities whose placement is subject to certain conditions, in particular equity securities issued in connection with over-allotment options (greenshoe options).

² The provisions of FMIA and the related implementing provisions are applied analogously to primary-listed issuers of equity securities whose registered office is outside Switzerland.
