2 Definitions

The following definitions are used in this List of Trading Charges:

Access	Connection of physical data line to the Exchange network.
Access fee	The Exchange levies a monthly access fee per connection to the Exchange system. This differs depending on the type of connectivity chosen and is payable irrespective of trading activity.
Admission fee	The Exchange may charge new participants and GCMs a one-off fee.
Ad-valorem fee	The ad valorem fee depends on the transaction volume.
Aggressor	Order that executes against an order already in the order book (continuous trading).
ASP	Application Service Provider.
Auction execution	An auction execution results when an order is executed during an auction.
bp	Basis points (1/100th of a percentage point).
CHF	Swiss francs.
Client	Participants, Application Service Providers (ASP), Independent Software Vendors (ISV), Infrastructure Service Providers (ISP) and market data vendors/recipients.
Co-Location Access	Access in co-location data centre of the Exchange to connect client infrastructure hosted either in co-location or located in the Zurich metro area.
Commitment levels	Discount bands relating to the ad valorem fee; dependent on the participant reaching a certain minimum monthly fee volume.
Connectivity	Network set-up which consists of one or two self-redundant accesses.
Exchange	SIX Swiss Exchange Ltd
Extraordinary investigation fee	The Exchange charges participants a fee if they give cause for extraordinary investigation.
Extraordinary monitoring fee	The Exchange charges participants a fee if they give cause for extraordinary monitoring.
FTPS capacity fee	Each participant can buy trading capacity in the form of FIX transactions (STI orders) per second (FTPS). The Exchange charges a fee for this.
GCM	General Clearing Member; fulfills the function of GCM for participants which are no clearing members of a central counterparty recognised by the Exchange.
Immediate Order	Normal Order with validity fill-or-kill or immediate-or-cancel, or Normal Order with routing instruction SWMX.
In limit	Resting Order with price type «Market» or «Limit» and the order price is equal or better (buy limit is equal or greater or sell limit is equal or smaller) than the midpoint price of the Central Limit Order Book of the corresponding security.
ISP	Infrastructure Service Provider, meaning a telecommunications service provider.
Issuing fee	The Exchange charges a fee on certain issues of securities admitted to trading on SIX Swiss Exchange.
ISV	Independent Software Vendor
Liquidity provider	A participant submitting buy and sell orders by way of orders and quotes in accordance with agreed liquidity requirements.
LPS	Liquidity Provider Scheme; discount bands relating to the transaction fee and ad valorem fee as well as the capacity fee, which are dependent on the fulfilment of certain requirements.
Market maker	A participant submitting buy and sell orders by way of quotes and in accordance with trading segment-specific requirements, and which has also concluded a market maker agreement.
Minimum Activity Charge (MAC)	The MAC represents the difference between the defined minimum fee volume and the eligible fee volume.
Optical link	Optical access/fibre-optic connection.
Order	An order to buy or sell a security. Orders entered via the STI are designated as STI Orders, and those entered via the OTI are designated as OTI Orders.

OTPS capacity fee	Each participant can buy trading capacity in the form of OUCH transactions (OTI orders) per second (OTPS). The Exchange charges a fee for this.
Partial fulfilment	Fulfilment of 80% of the cumulative requirements for the application of the LPS tariff. The participant is granted two partial fulfilments per calendar year.
Participant	Participant of the Exchange.
Participation fee	The Exchange charges each participant an annual fee.
Poster	An order which comes to execution from the order book (in the continuous trading Exchange period).
Proximity Service Provider	Infrastructure service provider with location close to the Exchange data centre.
QPS capacity fee	Each market maker and liquidity provider can buy guaranteed trading capacities for individual trading segments in the form of quotes per second (QPS) ("QTI Quotes"). The Exchange charges a fee for this.
Quote	A quote is a limited order to buy or sell (one-sided quote) or a pair of limited orders to buy and sell (two-sided quote). Quotes entered via the QTI are designated as QTI Quotes. Quotes are given by market makers and liquidity providers in trading segments that operate according to the corresponding market or fee model.
Resting Order	Normal Order with validity good-for-day or good-till date, or Normal Order with routing instruction SWMB.
SCAP	The SIX Swiss Exchange Common Access Portal, i.e. the technical infrastructure used to access services offered by SIX Swiss Exchange.
Sponsored Access	Sponsored Access (SA) refers to an arrangement through which a participant of the Exchange facilitates the submission of client orders to the Exchange by permitting clients to transmit orders electronically and directly to the Exchange under the Sponsoring Participant's member ID without the orders being routed through the Sponsoring Participant's internal electronic trading systems.
Sponsored User	Sponsored User means a client of a Sponsoring Participant that has been permitted Sponsored Access to the Exchange by a Sponsoring Participant.
Sponsoring Participant	Sponsoring Participant means a participant of the Exchange that permits clients Sponsored Access to the Exchange.
Trade	(Partial) execution of an order.
Transaction	Execution of an order. When an order is executed in several tranches (partial executions), all tranches of the order on the same trading day are collated into a single transaction.
Transaction fee	The Exchange charges a fee for all on-order-book and off-order-book transactions. This fee is payable per transaction and participant. The level of this fee depends on the trading segment concerned.
Turnover	Buy and sell turnover

3 Participation fees

3.1 Participant admission fee

The Exchange does not collect an admission fee from its participants.

3.2 Admission fee GCM (General Clearing Member)

¹ The one-off admission fee payable to the Exchange is CHF 5,000 per GCM.

² The Exchange may reduce or waive the one-off admission fee if the GCM is a participant of the Exchange.

³ Participants must remit the one-off admission fee before starting to trade on the Exchange.

⁴ No full or partial reimbursements of the one-off admission fee will be made.

3.3 Participant annual fee

¹ The Exchange charges participants an annual fee of CHF 20,000 each. Should participation begin or end during a year, this fee is levied pro-rata.

² For new participants, the first annual fee, equalling the trading fees laid down in Clauses 7-9, is waived for the first twelve months after the participant is admitted as such.

³ Should the participant cancel its membership during this period, no right of set off pursuant to paragraph 2 will apply.

3.4 Annual fee GCM (General Clearing Member)

¹ The annual fee per GCM is CHF 5,000 each. Should participation begin or end during a year, this fee is levied pro-rata.

² The Exchange may reduce or waive the annual fee if the GCM is a participant of the Exchange.

3.5 Sponsored Access fee

¹ All of the Sponsored Access fees that are charged by the Exchange, as specified below, are exclusive of value-added taxes.

² Sponsoring Participants that permit a Sponsored User Sponsored Access to the Exchange are subject to a monthly Sponsored Access fee of CHF 1,000 per Sponsored User.

³ The Exchange provides one Sponsored Access drop copy feed per Sponsored User free of charge. Each additional drop copy feed is subject to a monthly charge of CHF 750 per Sponsored User.

⁴ The Exchange provides the Sponsoring Participant three "RiskXposure Graphical User Interfaces" free of charge to monitor all Sponsored Access flow from its Sponsored Users. Each additional "RiskXposure Graphic User Interface" is subject to a monthly charge of CHF 250. The Exchange reserves the right to limit the number of "RiskXposure Graphical User Interfaces" per Sponsoring Participant.

4 Access fee

¹ The Exchange charges a monthly access fee for each access to the Exchange system. This fee is charged irrespective of the number of participants accessing the platform via that connection.

² The applicable rates are set out in the Annex to this List of Trading Charges.

³ All of the access fees charged by the Exchange, as specified below and in the Annexes, are exclusive of value-added taxes.

5 Extraordinary fees

All of the extraordinary fees that are charged by the Exchange, as specified below, are exclusive of value-added taxes.

5.1 Extraordinary monitoring fee

The Exchange charges participants a monitoring fee if they give cause for an extraordinary monitoring. This fee is determined by the complexity of the monitoring task and the time involved. It is subject to a minimum charge of CHF 1,000.

5.2 Extraordinary investigation fee

The Exchange charges participants an investigation fee if they give cause for an extraordinary investigation. This fee is determined by the complexity of the investigation and the time involved. It is subject to a minimum charge of CHF 1,000.

5.3 Mistrade fee

The Exchange charges participants who have caused a trade to be declared null and void (mistrade), or the corresponding investigation, a fee of CHF 200.

5.4 Cancellation fee

The Exchange charges participants a fee of CHF 50 for entering and cancelling a trade or Trade Report on their behalf.

6 Issuing fee

¹ The Exchange charges a fee on certain issues of securities admitted to trading on SIX Swiss Exchange. The following domestic (Swiss) issues are subject to this fee:

- a) Underwriting of Swiss bonds: the fee is payable by the securities dealer that underwrites the securities upon issue (lead manager, syndicate head).
- b) Placement of Swiss bonds which are not underwritten (direct placement on a commission basis): the fee is payable by the securities dealer that handles the placement.

² Issues outside Switzerland are exempt from this fee.

³ The fee is not levied on:

- a) the assignment and underwriting of sub-participations;
- b) allotments to subscribers;
- c) the issue of banks' medium-term notes;
- d) the issue of federal, cantonal or municipal medium-term notes;
- e) the issue of Swiss investment fund units;
- f) the issue of bonds from non-Swiss issuers;
- g) the issue of convertible capital and debt instruments by domestic borrowers to carry losses the case of insolvency measures described in Art. 126 et seqq. of the Ordinance on Capital Adequacy and Risk Diversification for Banks and Securities Traders (Capital Adequacy Ordinance), providing the bond or similar debt security is issued between 1 January 2017 and 31 December 2021 and FINMA approves the bond being set off against required capital, or approves the similar debt security as fulfilling the regulatory requirements under the Federal Act on Banks and Savings Banks (Banking Act).

⁴ The fee is levied on the nominal value of the issue and is essentially 7 centimes per CHF 1,000 of nominal value. This is capped at CHF 50,000 per issue or additional tranche. For bonds with a term to maturity of no more than one year, the fee is 5 centimes per CHF 1,000 of nominal value. This is capped at CHF 5,000 per issue or additional tranche.

7 Fees for on-exchange, on-order-book trading

7.1 Principle

¹ The Exchange levies a fee on all on-exchange, on-order-book trades. This is payable per trade and participant.

² For orders with Routing Instructions "SWMX" and "SWMB", the Exchange charges the fee according to whether the trade was executed on-exchange, on-order-book or on-exchange without pre-trade transparency.

³ The fee is defined individually for each trading segment. The applicable rates are set out in the relevant Annexes A-J to this List of Trading Charges.

⁴ The fee comprises a transaction fee and an ad valorem fee.

7.2 Transaction fee

¹ The transaction fee is a fixed charge.

² For an order executed on the same day in several tranches, the transaction fee is due pro rata for every individual tranche.

³ The Exchange may institute rate bands for the transaction fee in individual trading segments.

7.3 Ad valorem fee

¹ The ad valorem fee depends on the trade's transaction volume. It is determined in terms of basis points and has both a set minimum (floor) and a set maximum (cap).

² The ad valorem fee is determined by the type of the (partial) execution. Its amount may differ

- a) for orders which are executed from the order book (posters),
- b) for orders which are executed directly with orders in the order book (aggressor) and
- c) for orders which are executed during auction (auction execution).

³ The Exchange charges an ad valorem fee for (partial) executions which result from that portion of iceberg orders which exceeds the visible quantity in the order book. The ad valorem fee corresponds to that which is applied to orders which are executed directly with orders in the order book (aggressor).

⁴ The Exchange may offer trading segments alternative rates (e.g. a standard rate for both posters and aggressors or the market maker tariff).

⁵ The Exchange may institute rate bands for the ad valorem fee in individual trading segments.

7.4 Rate bands

Where several rate bands are defined, participants are subject to the following rules:

7.4.1 Standard

The standard tariff is applicable for participants that have not chosen a tariff.

7.4.2 Newly admitted participants

¹ The choice of tariff for newly admitted participants obligates the participant to observe certain criteria. The provisions of Clause 7.4.3 shall apply mutatis mutandis.

² The tariff is applicable for no longer than the duration of three months. This period begins on the first day of the month following the commencement of trading.

7.4.3 Commitment levels

¹ The choice of a commitment level tariff obligates the participant to observe certain criteria. The commitment levels in question are essentially minimum fee volumes which are defined monthly.

² If the participant does not achieve the commitment level defined for the chosen rate band, it must pay a Minimum Activity Charge (MAC).

³ The MAC represents the difference between the commitment level and the eligible fee volume actually generated. The MAC is charged on a monthly basis.

⁴ The following are counted towards the achievement of the commitment level:

- a) all of the fees set out in Clauses 7 and 9 of this List of Trading Charges which are incurred in the following trading segments:
 - 1. Blue Chip Shares (Annex A); and
 - 2. Secondary Listing Shares (Annex C); and
 - 3. Sponsored Foreign Shares (Annex D); as well as
- b) all fees according to Clause 8 of this List of Trading Charges for trade on the exchange without pre-trade transparency in SwissAtMid in the trading segment Blue Chip Shares (Annex K).

⁵ Where several participants which are wholly owned by the same group have each selected a commitment level, these participants may apply for the rate band of the highest commitment level chosen. The Exchange will approve the application provided the participants can prove that they fulfil the conditions of this paragraph. The participants' individual commitment levels and the MACs to be paid upon them remain unchanged by this arrangement.

⁶ Changes of rate band are possible with effect from the beginning of any given month. They must be notified to the Exchange in writing using the corresponding notification form at least three calendar days in advance.

7.4.4 LPS CLOB

¹ The LPS CLOB tariff is applicable if the participant undertakes to observe certain criteria and if they fulfil the requirements for the tariff on an accumulative basis monthly.

² The LPS CLOB tariff includes on-exchange, on-order-book trades

- a) in trading segments defined by the Exchange;
- b) under a single or multiple nominated participant identifications (Party IDs); and
- c) which are flagged as proprietary transaction (trading in own name and for own account).

³ The tariff models of this List of Trading Charges chosen by the participant apply for other trades.

⁴ The requirements for the applicability of the LPS CLOB tariff are laid down in the corresponding Annex to this List of Trading Charges.

⁵ The standard tariff or chosen commitment level tariff is applicable on a subsidiary basis if the participant fails to meet the requirements for the LPS CLOB tariff. This does not apply to partial fulfilments.

⁶ The minimum activity charge (MAC) is not levied if the participant has only executed on-exchange, on-order-book trades which qualify for the LPS CLOB tariff in accordance with this Clause 7.4.4 para. 2, and has chosen a commitment level tariff that is subsidiary to the LPS CLOB tariff. Clause 7.4.3 applies to other trades.

⁷ The Exchange rules out the applicability of the LPS CLOB tariff for the duration of at least three months if the participant

- a) fails to fulfil the requirements for the LPS CLOB tariff;
- b) breaches the provisions of this Clause 7.4.4, in particular if it flags orders as client transactions (trading in own name but for the account of the client) under the nominated participant identifications (Party IDs);
- c) has exceeded the permissible number of partial fulfilments.

⁸ Changes of rate band are possible with effect from the beginning of any given month. They must be notified to the Exchange in writing using the corresponding notification form at least three calendar days in advance.

7.5 Special fees

¹ The Exchange may levy a special fee for the use of Normal Orders with "fill-or-kill" (FOK) or "immediate-or-cancel (IOC or Accept)" validities, as well as for the replication of these order validities by the participant.

² A replication is deemed to be the entry of an order followed by the deletion of the same order within one second.

³ The fee is defined individually for each trading segment. The applicable rates are set out in the relevant Annexes to this List of Trading Charges.

8 Fees for on-exchange trading without pre-trade transparency

8.1 Principle

¹ The Exchange levies a fee on all trades that are conducted on-exchange without pre-trade transparency. This is payable per trade and participant.

² For orders with Routing Instructions "SWMX" and "SWMB", the Exchange charges the fee according to whether the trade was executed on-exchange, on-order-book or on-exchange without pre-trade transparency.

³ The fee is defined individually for each service and trading segment. The applicable rates are set out in the relevant Annex K to this List of Trading Charges.

⁴ The fee comprises a transaction fee and an ad valorem fee.

8.2 Transaction fee

¹ The transaction fee is a fixed charge.

² For an order executed on the same day in several tranches, the transaction fee is due pro rata for every individual tranche.

³ The Exchange may institute rate bands for the transaction fee in individual trading segments.

8.3 Ad valorem fee

¹ The ad valorem fee depends on the trade's transaction volume. It is determined in terms of basis points and has both a set minimum (floor) and a set maximum (cap).

² The ad valorem fee is determined by the type of the (partial) execution. Its amount may differ

a) for orders which rest in the order book ("Resting Orders"); and

b) for orders that are immediately executed and removed from the order book ("Immediate Orders").

³ The Exchange may offer alternative rates for individual trading segments.

⁴ The Exchange may offer various rate bands for the ad valorem fee. The various rate bands may also be based on the participant's choice of tariff for on-exchange, on-order-book trading in accordance with Clause 7.

⁵ The Exchange may institute rate bands for the ad valorem fee in individual trading segments.

8.4 Rate bands

Where several rate bands are defined, participants are subject to the following rules:

8.4.1 Standard

The standard tariff is applicable for participants that have not chosen a tariff.

8.4.2 Newly admitted participants

The provisions of Clause 7.4.2 apply.

8.4.3 Commitment levels

The provisions of Clause 7.4.3 apply.

8.4.4 LPS SwissAtMid

¹ The LPS SwissAtMid tariff is applicable if the participant undertakes to observe certain criteria and if they fulfil the requirements for the tariff on an accumulative basis monthly.

² The LPS SwissAtMid tariff includes on-exchange trades without pre-trade transparency in SwissAtMid

- a) in trading segments defined by the Exchange;
- b) under a single or multiple nominated participant identifications (Party IDs); and
- c) which are flagged as proprietary transaction (trading in own name and for own account).

³ The tariff models of this List of Trading Charges chosen by the participant apply for other on-exchange trades without pre-trade transparency.

⁴ The requirements for the applicability of the LPS SwissAtMid tariff are laid down in Annex K to this List of Trading Charges.

⁵ The standard tariff is applicable on a subsidiary basis if the participant fails to meet the requirements for the LPS SwissAtMid tariff. This does not apply to partial fulfilments.

⁶ The minimum activity charge (MAC) is not levied if the participant has only executed trades without pre-trade transparency in SwissAtMid which qualify for the LPS SwissAtMid tariff in accordance with this Clause 8.4.4 para. 2, and has chosen a commitment level tariff that applies on a subsidiary basis to on-order-book trading. Clause 8.4.1 applies to other trades.

⁷ The Exchange rules out the applicability of the LPS SwissAtMid tariff for the duration of at least three months if the participant

- a) fails to fulfil the requirements for the LPS SwissAtMid tariff;
- b) breaches the provisions of this Clause 8.4.2, in particular if it flags orders as client orders (trading in own name but for the account of the client) under the nominated participant identifications (Party IDs);
- c) has exceeded the permissible number of partial fulfilments.

⁸ Changes of rate band are possible with effect from the beginning of any given month. They must be notified to the Exchange in writing using the corresponding notification form at least three calendar days in advance.

9 Fees for on-exchange, off-order-book trading

9.1 Principle

¹ The Exchange levies a fee on all trades reported to it on-exchange, off-order-book. This is payable per trade and participant.

² The fee is defined individually for each trading segment and/or service. The applicable rates are set out in the relevant Annex to this List of Trading Charges.

³ This fee is the same for all participants. It comprises a transaction fee and an ad valorem fee.

9.2 Transaction fee

The transaction fee is a fixed charge.

9.3 Ad valorem fee

The ad valorem fee depends on the trade's transaction volume. It is determined in terms of basis points and has both a set minimum (floor) and a set maximum (cap).

9.4 Fee for Trade Type "Both Parties"

For one-sided Trade Reports flagged with the Trade Type "Both Parties", the Exchange charges the participant the fees for on-exchange, off-order-book trading for both of the parties involved in the trade.

10 Capacity fees

All capacity fees of the Exchange specified below and in the annexes are exclusive of VAT.

10.1 QPS capacity fee

¹ The Exchange provides market makers and liquidity providers with dedicated trading capacities in the form of quotes (quotes per second, QPS) for individual trading segments.

² The Exchange may allocate QPS to participants in return for a fee. Allocation is on a monthly basis.

³ The QPS capacity fee is defined per trading segment. The applicable allocation models and rates are set out in the relevant Annex to this List of Trading Charges.

10.2 FTPS capacity fee

¹ The Exchange provides trade capacities in STI orders (FIX transactions per second, FTPS) for the markets it operates.

² The Exchange may allocate additional FTPS to participants in return for a fee. Allocation is on a monthly basis.

³ The applicable allocation models and rates are set out per trading segment in the relevant Annex to this List of Trading Charges.

10.3 OTPS capacity fee

¹ The Exchange provides trade capacities in OTI orders (OUCH transactions per second, OTPS) for the markets it operates.

² The Exchange may allocate additional OTPS to participants in return for a fee.

³ The applicable allocation models and rates are set out per trading segment in the relevant Annex to this List of Trading Charges.

11 Common Provisions

11.1 Payment dates

¹ Unless agreed otherwise, the Exchange's invoices must be paid within 30 days of issue.

² Interest in arrears of 10% p.a. may be charged on payments received late.

11.2 Reimbursement of fees

¹ Any claim for the reimbursement of fees must be lodged within six months of the invoice date. Entitlement to reimbursement will lapse at the end of this period.

² The claim for reimbursement must be supported by confirmation from the participant's auditors.

Resolution of the Management Committee of the Exchange of 23 July 2018, in effect since 15 October 2018.

Annex A – Blue Chip Shares

Annex L – Access Fee

1 Direct connection via Managed and Leased Line

The monthly access fee for clients with direct connections to the Exchange network (SCAP) is determined by the type of connectivity chosen. It is levied per access and port (not redundant). The line costs from the participant to the SCAP network of the Exchange via an external data line are not included in the price and are borne by the participant. The applicable fees are given in the following table:

Connectivity option	Bandwidth	Access fee p.m. (CHF)
Internet	up to 1 Mbps	free of charge
Managed IP service	up to 2 Mbps	600
Managed IP service	up to 4 Mbps	950
Managed IP service	up to 10 Mbps	1,000
Managed IP service	up to 30 Mbps	1,400
Managed IP service	up to 50 Mbps	1,800
Managed IP service	up to 100 Mbps	2,400
Ethernet service	up to 4 Mbps	950
Ethernet service	up to 10 Mbps	1,000
Ethernet service	up to 30 Mbps	1,400
Ethernet service	up to 50 Mbps	1,800
Ethernet service	up to 100 Mbps	2,400
Optical link	up to 50 Mbps	3,500*
Optical link	up to 100 Mbps	4,500*

* plus one-off, expenditure-dependent internal installation costs incurred by the Exchange, e.g. for technical connection, routing, configuration, etc.

The access fees listed above include access to the interfaces listed under Clause 6. Additional accesses to the Exchange system will be billed separately (see Clause 6 below).

The provisions on billing and termination are governed by Clause 8.

2 Direct connection via Proximity Service

The monthly access fee for clients with direct connections via Proximity Service to the Exchange network (SCAP) is determined by the bandwidth chosen. It is levied per access and port (not redundant). The applicable fees are given in the following table:

Connectivity option	Bandwidth	Access fee p.m. (CHF)
Proximity Service	up to 50 Mbps	2,750
Proximity Service	up to 100 Mbps	3,050

The Exchange reserves the right to adjust the managed bandwidths as necessary and to limit the number of ports per client.

The provisions on billing and termination are governed by Clause 8.

3 Co-Location Access

The monthly access fee for clients with Co-Location Access is CHF 1,250 per port (not redundant).

The participant bears the costs of the line from the participant infrastructure to the Exchange demarcation point.

The Exchange reserves the right to limit the number of ports per client.

The provisions on billing and termination are governed by Clause 8.

4 Direct connection via an Access Point abroad

The monthly access fee for clients with direct connections via Access Point abroad to the Exchange network (SCAP) is determined by the bandwidth chosen. It is levied per access and port (not redundant). The applicable fees are given in the following table:

Connectivity option	Bandwidth	Access fee p.m. (CHF)
Access Point abroad	up to 50 Mbps	2,650
Access Point abroad	up to 100 Mbps	2,950

The Exchange determines the Access Points. The Exchange reserves the right to adjust the managed bandwidths as necessary and to limit the number of ports per client.

The participant bears the costs of the line to the Access Point.

The provisions on billing and termination are governed by Clause 8.

5 Participant connection via an ASP

Participants connecting via an ASP are not charged a monthly fee.

6 Connectivity of Infrastructure Service Providers (ISP)

The connectivity fee for ISP is divided into one-off and continuous fees.

6.1 One-off connectivity fee

The one-off connectivity fee for ISPs consists of a fixed-cost amount of CHF 9,500 and an expenditure-dependent fee of CHF 200 per hour.

6.2 Ongoing connectivity fee

The ongoing fees for ISPs depend on the number of the participants connected via the relevant ISP:

- For ISPs connecting up to ten participants, the monthly fee is CHF 2,800 regardless of whether the ISP connects to the Exchange with one or two data lines.
- From eleven connected participants, the connection for ISPs is free of charge.

The provisions on billing and termination are governed by Clause 8.

7 Trading interfaces

7.1 Standard Trading Interface (STI)

The monthly access fee includes standard connection to the Standard Trading Interface, as well as a number of free FIX connections and Party IDs.

The number of free FIX connections is determined by the commitment level tariff chosen for the Blue Chip Equity trading segment, as well as connection status to the OUCH Trading Interface (OTI), or the Quote Trading Interface (QTI).

Membership	Free FIX connections for participants with OTI or QTI connection	Free FIX connections for participants without OTI or QTI connection
Participant without commitment level tariff	3 free FIX connections	1 free FIX connection
Participant with commitment level 1 tariff	6 free FIX connections	2 free FIX connections
Participant with commitment level 2 tariff	9 free FIX connections	3 free FIX connections
Participant with commitment level 3 tariff	12 free FIX connections	4 free FIX connections
Participant with LPS CLOB tariff	12 free FIX connections	4 free FIX connections

An application must be submitted to the Exchange for each additional FIX connection and Party ID for participants and Application Service Providers.

The Exchange charges an additional monthly fee of CHF 2,000 for each authorised FIX connection over and above the free allocation.

Depending on their commitment level tariff, each participant receives the following number of free FIX transactions per second (FTPS) from the Exchange:

Membership	Free FIX transactions per second (FTPS)
Participant without commitment level tariff	20
Participant with commitment level 1 tariff	60
Participant with commitment level 2 tariff	80
Participant with commitment level 3 tariff	120
Participant with LPS CLOB tariff	200

Each participant may increase their FTPS capacity by paying a monthly fee of CHF 250 per FTPS. The Exchange reserves the right to introduce a cap on FIX transactions per participant.

7.2 OUCH Trading Interface (OTI)

There is no additional access fee for OTI usage.

7.2.1 OUCH Trading Interface (OTI) - Equity

The number of OUCH transactions per second (OTPS) is unlimited for trading in equity markets.

The Exchange reserves the right to limit the number of OTI-Equity connections.

7.2.2 OUCH Trading Interface (OTI) - Non-Equity

Depending on their commitment level tariff, each participant receives the following number of free OUCH transactions per second (OTPS) from the Exchange for trading in non-equity markets:

Membership	Free OUCH transactions per second (OTPS)
Participant without commitment level tariff	20
Participant with commitment level 1 tariff	60
Participant with commitment level 2 tariff	80
Participant with commitment level 3 tariff	120
Participant with LPS CLOB tariff	200

Each participant may increase its OTPS capacity by paying a monthly fee of CHF 250 per OTPS. The Exchange reserves the right to limit the number of OTI non-equity connections.

7.3 Quote Trading Interface (QTI)

Market makers and liquidity providers are not charged an additional access fee for their QTI connection.

The Exchange reserves the right to limit the number of QTI connections.

8 Common Terms

The client or the Exchange may terminate the client connection in writing subject to a notice period of thirty days, effective at the end of a month.

Should a new client connection subsequently be established, the Exchange will waive the one-off installation fee.

The access fee will be charged from the date on which the data centre provider or line provider reports the connection as ready for service, or from the agreed time in the case of managed IP and ethernet services.

The minimum billing period is three months.

When switching a connection option or location that is already in place, the client is charged the actual expenses at a rate of CHF 200 per hour, but at least CHF 2,500 per connection.

The cancellation of an existing access which preceded a new access within the last three months is subject to the same fee regulations above.
